

We are growing, and have an immediate need. Our firm is one of the top security and firewall consulting companies in the southeastern United States. We are looking to expand our reach and grow our market share even further by adding a new location in Charleston, SC.

We are currently looking for an experienced network and security consultant in this market. This position is responsible for working directly with clients on managing and deploying IT security related assets along with assisting sales team in selling. This position will have a strong focus on maintaining client security while finding the right solutions for them to help their respective business objectives.

Job Responsibilities:

- Plan, deploy and maintain network security products.
- Provide system administration services to select clients.
- Research and evaluate solutions for client to assist sales team.
- Provide constant communication to client and management during projects and problem areas.
- Consulting skills such as analysis and documentation.
- Proactively work with clients to maintain an uptime objective.

Preferred Experience/Skill Requirements:

- Windows Server 2003/2008
- Microsoft Exchange Server 2003/2007
- Symantec Backup Exec Version 10/11d/12d/12.5/2010
- End Point Security
- Watchguard Firewalls
- Websense Security Platforms or Other Web Blocking Software Experience
- Network and Traffic Analysis
- VPN, Wide Area, and LAN Routing
- 5+ Years of Field Experience
- Excellent Communication and Presentation Skills
- Previous Consulting or Third Party Support Role Required

What we Offer:

- Firewall and Email Security Training
- Medical and Dental Insurance
- Life Insurance
- Paid time Off
- Education and Tuition Benefits
